One-Step Plastic Primer Filler

Number: GLABUL0155-ES

Date: June, 2007

Glasurit® Brand Management is pleased to introduce 934-70 One-Step Plastic Primer Filler.

This innovative primer offers significant time and cost savings to body shops who prime plastic parts using several different products and several different steps.

This product truly makes priming plastic parts a one-step application. When applied to properly cleaned plastics, a painter can “spray and go” to the topcoat application. Not only does this primer not require an adhesion promoter, but it also has filling properties, allowing for the correction of any imperfections in the plastic substrate.

This product may also be used as a wet-on-wet sealer.

Please refer to the technical data sheet for detailed information as to the proper application of this product.

A Material Safety Data Sheet (MSDS) for this product may be viewed and downloaded from www.basfrefinish.com/glasurit.html

Advantages

- Time savings
- Cost savings
- Good adhesion
- Filling properties
- Ease of application

Ratio

100 parts 934-70
25 parts 929-53
25 parts 352-50 or 352-91

Additional Information

- BASF Part Number: 93470Z-0092
- UPC Code: 652282020285
- UN DOT Number: 1263
- Packing Group: III
- Can Dimension: 5□" H x 4¼" Dia.
- Units/Case: 6
- Case Dimension: 5□" H x 8¾" W x 13¼" L
- Wt/Case: 17.6 lbs
